

AYUSH RAJ | IIT KHARAGPUR

B.Tech.(Hons.) in MINING ENGINEERING and M.Tech. in MINING ENGINEERING

ayushrajsbp2@gmail.com | +91 8407884035

EDUCATION

Year	Degree/Exam	Institute	CGPA/Marks
2026	M.TECH Dual Degree 5Y	IIT Kharagpur	7.58 / 10
2020	Class XII, BSEB	D.C Inter College, S.B.Pur	88.2%
2018	Class X, BSEB	+2 High School, S.B.Pur	80.4%

INTERNSHIPS

Software Developer Intern | AuxVent

May '25 - Jul '25

Supervisor: Prof. B.S. Sastry, IIT Kharagpur

- Developed a **full-stack software** to **optimize** fan selection, **quantity**, and duct type and **dimension** in auxiliary ventilation systems
- Automated input data generation** for ventilation networks, transforming **hours of manual** work into **instant**, error-free execution
- Migrated a complex **Network Analysis Program** from **Fortran** to **Java**, creating a user-friendly application with improved functionality
- Engineered **Binary Search** algorithm to evaluate fan and duct setups, identifying **cost-efficient** and **safety-compliant** configurations
- Integrated a **chatbot microservice** with Spring Cloud **Eureka** for **service discovery**, providing real-time user support and interaction
- Deployed** the application on **AWS Elastic Beanstalk**, accessible at the public domain auxventapp.eu-north-1.elasticbeanstalk.com

PROJECTS

AI - Powered Quiz Application

Aug '25 - Present

- Developing a **software** product, a **quiz app** to facilitate quiz creation, participation, and evaluation for academic educators and learners
- Integrating Groq's **Llama 3 model** to dynamically generate quizzes through **prompts**, enabling customizable distribution of topics
- Architecting a **secure backend** using **Spring Boot** and **Spring Security**, handling authentication, authorization, and team management
- Utilized **MySQL** for efficient data storage, ensuring **consistency** and integrity of all quiz data, user activity, and performance records

DiamondWash App | Coal Washability Analysis

Feb '25 - Apr '25

- Developed an application to **analyze coal washability curves**, **reducing** complex calculations and **manual multi-curve plotting**
- Employed **Apache POI** library to process **float-sink test data** from an **Excel** file and generate structured, user-friendly analytical outputs
- Executed **cubic spline interpolation** algorithm to estimate **specific gravity of separation** point on washability curves

AI Assistant | MineVent

Dec '24 - Feb '25

- Developed a **chatbot** using Groq's Llama 3 model and **Retrieval-Augmented Generation** for conversational support on mine ventilation
- Implemented advanced text processing, chunking, and **Pinecone** Vector Storage to optimize the speed and relevance of responses
- Engineered a **history-aware retriever** to retain conversational context and integrated a **feedback mechanism** to enhance system accuracy

Smart Contact Manager

May '24 - Nov '24

- Developed **secure user authentication** features with email-password verification and **OAuth-based Google login** for seamless access
- Designed and implemented **CRUD** functionalities for managing contacts, leveraging Spring Data JPA to interact with relational databases
- Integrated email communication within the platform by enabling users to **send emails directly** through the **JavaMailSender** interface
- Utilized the Hibernate ORM module to **map database** tables with Spring Bean, simplifying data persistence and reducing boilerplate code

SKILLS AND EXPERTISE

- Languages:** Java (Proficient) | Python | C | JavaScript (Basic) | HTML | CSS | SQL • **Frameworks:** Spring | Spring Boot | Hibernate
- Developer Tools:** Core Java | OOP | Microservices | System Design | DBMS | Java EE | MySQL | Git | Github | REST APIs
- Coursework:** Object Oriented Programming | Programming and Data Structures | Probability and Statistics | File Organization and Database Systems | Computer Organisation and Architecture | Quantitative Decision Making | Mineral Economics and Business

AWARDS AND ACHIEVEMENTS

- Solved over **1000** problems in **Data Structures and Algorithms** across platforms, including LeetCode, GFG, CodeChef, and Codeforces
- Completed over **2000** submissions on LeetCode with a consistent **70% acceptance** rate and achieved a peak **contest rating of 1691**
- Achieved distinction in the prestigious Pre-Regional **Mathematics Olympiad**, ranking among the **top 1920** students **nationally**
- Secured **All India Rank 371** in GATE 2025, placing in the **top 5%** in one of India's most competitive exams for engineering students

CERTIFICATIONS

Data Structures and Algorithms with Java | Apna College

May '23 - Aug '23

- Completed 16 weeks of training in **DSA**, **OOPS**, and Puzzles, and learnt advanced topics such as graphs, segment Trees, binary Trees, etc
- Learnt to apply diverse **problem-solving** paradigms, including Greedy, Divide and Conquer, Dynamic Programming, Binary Search, etc

Training of Spring Boot and Spring Framework | Udemy

Dec '23 - Jan '24

- Built and deployed **enterprise-grade applications** using **Spring Boot Framework** on **AWS** Cloud, employing Git for **version control**

POSITIONS OF RESPONSIBILITY

Coordinator Students' Welfare | Radhakrishnan Hall of Residence

Aug '23 - Apr '24

- Served on the **Institute Welfare Subcommittee**, actively advocating for the well-being of **600+ boarders** at RK Hall of Residence
- Led a team of **39 wing representatives** to strengthen mental health surveillance and promote awareness at a micro level

EXTRA CURRICULAR ACTIVITIES

- Proudly represented my school in prestigious **quiz** and **essay** competitions across block, district, state, and **national** competitive forums
- Over **150+** hours of social service involving **teaching**, promoting cleaning awareness as a part of **National Service Scheme**, IIT Kharagpur
